25X1A9a

TO : Chief, D/R  
Attn :   
FROM : Chief, A/WAR

DATE: 1 April 1952

SUBJECT: Miscellaneous Project on Antibiotics

1. The problem is to identify by name and location and to estimate the production of antibiotic plants in European Soviet satellite countries.

2. The scope is a one-page tabulation of a relatively small portion of the data assembled for the project on "Soviet Bloc Antibiotic Supplies and Requirements" recently proposed, plus a few additional details.

3. The origin of request is Mr. Frank H. Perez, Air Targets Division, Air Force Intelligence, during a personal visit to A/WAR. The request will be formalized, however, in a memorandum addressed to the AD/RR.

4. Mr. Perez asked by telephone that the requested information be available in A/WAR at 1000 hours on 2 April. He or whoever calls for it will be referred to your office.
